

MIHIR SINGH NETAM

☎ +918827194777 ✉ mihirnetam33@gmail.com 📠 mihirnetam-08m 📍 Rajnandgaon, India

PROFESSIONAL SUMMARY

Results-driven Software Engineer with a strong foundation in **front-end** and **back-end technologies**, including Java, C#, JavaScript, MVC, Spring Boot, and React.js. Proficient in building **dynamic web interfaces** and managing databases, with hands-on experience in developing scalable applications using microservices architecture and RESTful APIs. Committed to collaborating in agile environments, leveraging strong problem-solving skills, and delivering innovative full-stack solutions.

WORK EXPERIENCE

Backend Developer | Internship

Feb 2026 - Present

Botivate Service LLP

On-site • Raipur

- **Architecture & Integration:** Engineered a unified ERP-style platform using a **PERN stack (PostgreSQL, Express, React, Node.js)** that consolidated 5+ fragmented business modules into a single high-performance application.
- **Security & Access Control:** Architected a robust **Permission-Based Access Control (PBAC)** system using **Supabase RLS** and custom middleware, enabling granular, dynamic page-level and row-level access for multiple organizational tiers.
- **Database Optimization:** Designed scalable schema architectures involving complex **joins, triggers, and materialized views** in PostgreSQL, ensuring 100% data consistency across integrated modules during high-concurrency periods.
- **Automated Workflows:** Built an automated approval engine by integrating **Meta Business API (WhatsApp)** and **Resend (Email)** via **Maytapi**, reducing request approval turnaround time by automating routing through hierarchical organizational chains.
- **DevOps & Deployment:** Streamlined development cycles by implementing a **CI/CD pipeline via Vercel**, ensuring automated testing and seamless production deployments for real-time dashboard updates.

Technologies / Skills Used : *React, Node.js, Express, MongoDB, Supabase, Material UI, Vercel, PostgreSQL, Tailwind CSS, Redux, React Router, Framer motion, Axios, Maytapi, Resend*

PROJECTS

HEADLINR – News Aggregator

May 2025 - Jul 2025

Developer

- **Microservices Orchestration:** Architected a decoupled, real-time news ecosystem using **Spring Boot** and **Java**, leveraging **Netflix Eureka** for dynamic service discovery and seamless inter-service communication.
- **Security & Auth:** Engineered a stateless authentication layer using **JWT (JSON Web Tokens)** and **Spring Security**, implementing secure token-based authorization and reducing potential unauthorized access by 30%.
- **Scalable Data Design:** Integrated and optimized a **MySQL** relational database to manage high-integrity user activity logs and feed metadata, ensuring data consistency across multiple service instances.
- **Modern Frontend Architecture:** Developed a responsive user interface using **React**, utilizing **Hooks and Context API** for global state management to eliminate "prop-drilling" and reduce component re-render times.
- **API Strategy:** Designed and documented comprehensive **RESTful APIs** to handle complex news feed aggregation, user engagement metrics, and real-time data delivery.
- **Resiliency & Tooling:** Managed the full development lifecycle using **Maven** for dependency management and **Postman** for rigorous API contract testing.

Technologies / Tools Used : *Spring Boot, Java, MySQL, JWT, OAuth, React, Eureka, Bootstrap*

EDUCATIONS

Centre of Development in Advance Computing | Hyderabad

Feb 2025 - Aug 2025

Post Graduate Diploma in Advance Computing

Bhilai Institute of Technology | Durg

Dec 2020 - May 2024

Bachelor of Technology in Computer Science

SKILLS

Databases :

MySQL, PostgreSQL, MongoDB

Frameworks Libraries :

Spring Boot, Express, Hibernate, JWT Auth, OAuth Integration, Node.js, React.js, Redux, Next.js, Material UI, Bootstrap, Framer motion

Languages :

Hindi, English

Programming Languages :

Java, C#, JavaScript, SQL

Soft Skills :

Problem Solving, Adaptability, Teamwork, Critical Thinking

Tools Platforms :

Maven, npm, Docker, Git, Github, Postman, Vercel, Render, Supabase, Framer
