PROFESSIONAL SUMMARY

Full-stack developer with 7+ months of hands-on experience building production systems in Java, Spring Boot, React.js, and the PERN stack. Delivered microservices, REST APIs, and multi-tenant cloud deployments for 5+ client organizations at Botivate Services LLP, progressing from backend intern to full-time developer within the same team. Comfortable owning features end-to-end — from PostgreSQL schema design to React UI — and strengthening deployment infrastructure with Docker and AWS. Looking to bring that same ownership to a full-stack role on a growing product team.

WORK EXPERIENCE

Botivate Services LLP — *Raipur, On-site*

Full Stack Developer (Full-time) *Jul 2026 – Oct 2026*

- Delivered custom, service-based software solutions for 5+ client organizations using React.js, Next.js, Node.js, and PostgreSQL, improving multi-tenant architecture efficiency.
- Refactored core CRM backend workflows and rebuilt the UI with Tailwind CSS, reducing critical bugs and improving user UX.
- Optimized server-side logic and database operations to reduce API latency; maintained containerized deployment stability with Docker and AWS across 5+ production environments.

Backend Developer (Internship → converted to Full-time) *Feb 2026 – Jun 2026*

- Converted from intern to full-time developer within 5 months on the strength of delivered work; engineered a unified ERP-style platform on the PERN stack, consolidating 5+ fragmented business modules into one high-performance application used by 800+ users.
- Architected a Permission-Based Access Control (PBAC) system using Supabase RLS and custom middleware; optimized PostgreSQL schemas, triggers, and views to sustain data consistency under 500+ concurrent requests.
- Automated approval workflows by integrating the Meta WhatsApp Business API and Resend, cutting manual approval turnaround time; shipped a CI/CD pipeline via Vercel.

Tech: *React, Next.js, Node.js, Express, Tailwind CSS, Supabase, PostgreSQL, Redux, React Router, Docker, AWS, Prisma*

PROJECTS

Orbia ERP — Industrial Procurement Platform | *Personal Project*

Jul 2026 – Oct 2026 | GitHub | Vercel

- Built a multi-tenant ERP for construction and infrastructure firms using React, Express, TypeScript, Prisma, and Supabase PostgreSQL, unifying procurement, inventory, fleet, maintenance, and operations into one auditable platform with JWT/Bcrypt auth, Zod validation, and tenant-scoped RBAC middleware.
- Engineered a 7-stage procurement pipeline with 3-party bidding and automated GST-based PO generation, plus atomic inventory transactions with moving-average costing and negative-stock prevention; added fleet fuel-efficiency tracking, a maintenance work-order state machine, and Cloudflare R2 presigned-URL uploads.

Tech: *React 18, Vite, Node.js, Express 5, TypeScript, Prisma, PostgreSQL, Supabase, Cloudflare R2, Zod, Vitest, Tailwind CSS*

Nexus AI — Autonomous Agent Platform | *Personal Project*

Apr 2026 – Jun 2026 | GitHub | Vercel

- Built an autonomous AI agent platform using Java, Spring Boot, LangChain4j, and Gemini with a self-correcting ReAct reasoning loop, dynamic tool invocation, RAG, and long-running task execution.
- Engineered an asynchronous state-machine execution engine with JDK 21 Virtual Threads, PostgreSQL/pgvector, live execution logs, and a React-based Control Room for monitoring agent workflows.

Tech: *Java 21, Spring Boot 3.5, React 19, JavaScript, PostgreSQL, Supabase, Spring Data JPA, Tailwind CSS*

SKILLS

Programming Languages: Java, JavaScript, SQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express, Spring Boot, Redux, Hibernate, JWT Auth, OAuth, Material UI, Bootstrap

Databases: PostgreSQL, MongoDB, MySQL, Prisma

Tools & Platforms: Docker, AWS, GitHub, Vercel, Render, Supabase, Maven, npm, Postman, Framer

Languages: Hindi, English

Soft Skills: Problem Solving, Adaptability, Teamwork, Critical Thinking

EDUCATION

Centre for Development of Advanced Computing — Hyderabad

Post Graduate Diploma in Advanced Computing | Feb 2025 – Aug 2025

Bhilai Institute of Technology — Durg

Bachelor of Technology in Computer Science | Dec 2020 – May 2024
